INTRODUCTION

Dear Colleagues and Friends in the Refractory and Process Industries,

We are thrilled to welcome you to the International Colloquium on Refractories (ICR) 2025, taking place on September 17 and 18, 2025. This year's conference theme, „The AI Revolution: Transforming the Refractory Industry“, underscores the pivotal role that Artificial Intelligence (AI) is playing in shaping our future.

The integration of AI is no longer an option but a necessity for industries to remain competitive and innovative. For the refractory sector, AI offers unprecedented opportunities to enhance material properties, optimize production processes, and drive operational efficiencies. These advancements not only benefit our industry but also contribute to broader societal goals, such as sustainability and resource management.

However, the path to AI implementation is fraught with challenges, particularly for small and medium-sized enterprises (SMEs). Limited resources, expertise, and the rapid pace of technological change can make it difficult for SMEs to keep up. Yet, these challenges also present opportunities for collaboration and knowledge sharing.

At ICR 2025, we aim to address these hurdles head-on. The event will bring together leading academics, researchers, and industry experts to share insights, case studies, and practical solutions. We will explore how AI can be effectively integrated into refractory processes, discuss strategies to overcome implementation barriers, and foster a collaborative environment where SMEs can learn from larger organizations and vice versa.

Together, we can navigate the complexities of the AI revolution and ensure that the refractory industry not only adapts but thrives in this new era. We look forward to your active participation and the enriching discussions that will shape the future of our industry.

Welcome to ICR 2025.

Dr. rer. nat. Dipl.-Ing. Christian Dannert

T&Cs FOR EXHIBITORS AT THE ICR 2025 TRADE FAIR

EXHIBITION STANDS

The exhibitor will receive a confirmation from ECREF gGmbH ("the organiser") after booking a stand. The position of the stands will be arranged by the organiser after the official closing date for booking (15 June 2025). Allocation of a certain stand position cannot be guaranteed. For assigning exhibiting rights – even only partially – to a third party, the exhibitor needs written authorization from the organiser.

BOOTHS

The organiser has subcontracted the assembly of the booths on the stands at the trade fair to "M+ Messebau GmbH". Included in the stand are a standard booth and equipment as specified in the document you received with the confirmation of your booking. Changes in the specification of the booth (including additional or different equipment) are possible at extra cost to the exhibitor. Order forms for that you will receive from "M+ Messebau GmbH" after the stands have been allocated.

The exhibitor is not permitted to glue, nail or drill into exhibition material (displays, furniture, etc.) provided by the organiser or "M+ Messebau GmbH". The exhibitor will be responsible for possible recourse.

EXHIBITED GOODS

The organiser does not verify the exhibitor's exhibited goods in regard to their legality. If the organiser is informed of a possible rights infringement of an exhibitor and the organiser comes to the conclusion that a rights infringement does exist, it is entitled to block parts or the whole entry of the exhibitor.

CANCELLATION OF THE REGISTRATION BY THE EXHIBITOR

Exhibitors can cancel their booking free of charge until the official closing date for booking for the trade fair (15 June 2025). After this date, 35 % of the agreed fee are due.

FORCE MAJEURE

Force Majeure means an event or occurrence which is beyond the reasonable control of any one party without the party's fault or negligence, including, but not limited to, the following events: Acts of God, official directives (e.g. entry or travel restrictions), industrial disputes and any other circumstance beyond the control of the parties such as fire, war, extensive military mobilization, insurrection, requisition, seizure, embargo, restrictions in the use of power, currency and export restrictions, epidemics, natural disasters, extreme natural events, terrorist acts and defects or delays in deliveries by sub-contractors caused by any such circumstance referred to in this clause.

The party claiming to be affected by Force Majeure shall notify the other party without delay on the intervention and on the cessation of such circumstance. In any case of Force Majeure, the parties undertake to adjust their obligations to the changed circumstances in good faith. Either party shall be entitled to suspend performance of his obligations under the contract to the extent that such performance is impeded or made unreasonably onerous by Force Majeure. In any case of Force Majeure, the parties undertake to adjust their obligations to the changed circumstances in good faith.

The organiser and the exhibitor agree that the provisions on Force Majeure shall apply mutatis mutandis to any effects of the current Corona pandemic on the performance of this contract; however even such an effect is given in the sole opinion of organiser only.

TERMS OF PAYMENT

The exhibitor is obliged to pay the total amount of the fee within 14 days after the date of invoice.

NO WARRANTY OR INSURANCE

The organiser shall only be responsible for entrance and exit security control during the opening hours of the trade fair. The organiser will

not provide booth security control during set-up, dismantling or during opening hours. The organiser shall neither be held liable for theft of or damage to the exhibitor's own or rented goods, set-up of the booth or its dismantling or during transportation to or from the exhibition grounds. The exhibitor assumes liability for damages, i.e. due to painting or gluing or remains of paint or glue on the floor, nailing or drilling into the floor, walls or ceilings. Therefore, we strongly recommend that exhibitors take out their own insurance against the usual dangers such as fire, theft and transportation of exhibited goods.

LIABILITY

The exhibitor shall be liable for any and all damages that he, his employees, his agents or his helpers cause to exhibitor or to others during ICR 2025; this includes damage to buildings and exhibition facilities.

The organiser shall be liable to the exhibitor solely for damages that arise from gross negligence or intent on the part of its agencies or employees. One particular exclusion from liability is that of damage resulting from fire, water, explosions, storms or other acts of God, or from violent assault, theft, breaking and entering, failure of supply systems (such as electricity, gas, water) and similar causes, provided they are not attributable to the gross negligence or intent of organiser, its agencies or employees. This also applies to damage caused by the public (in particular by visitors to the event, or other exhibitors). Secondary damages or consequential damages resulting from breaches of contract on the part of the organiser are moreover only eligible for damages insofar as such damages are typically to be expected.

CATERING

Exhibitors are permitted to offer own catering after previous consultation with the organiser.

RESERVATIONS

The organiser reserves the right to postpone, curtail, close temporarily or completely, or to cancel the event for any cause. Should the organiser not be able to hold the event as a result of unforeseen circumstances, the exhibitors shall be informed immediately. The organiser will charge the exhibitor only for services provided up to this time, as well as for special services that have been ordered, to the amount of the costs incurred. Should the organiser be forced to cancel or curtail the commenced event as a result of circumstances that are outside of the control of the organiser, the exhibitor shall have no claim to a refund or waiver of the booth rent. The same applies if the organiser is forced to close or vacate one or more areas of the event.

DATA PROTECTION

For the purpose of fulfilling the contract, the organiser shall record, store, process and use the necessary personal data of the exhibitor as well transfer these data to third parties commissioned with the implementation of this contract. All details on the processing of data by the organiser can be found in the privacy policy at <https://www.ecref.eu/en/privacy-policy>.

By booking a stand, the exhibitor declares that he agrees to the above note on data processing.

LEGAL MATTERS

Any and all claims of the exhibitor against organiser shall be lodged in writing. They shall be time-barred within six months from the end of the year in which they become material. German law shall apply exclusively. Place of jurisdiction is Koblenz, Germany.
